## Section 1: Vision, Mission, Objectives and Functions

### Vision

To enhance productivity and production of agricultural commodities to ensure the food nutritional and livelihood security of the nation and also to make agriculture a sustainable and viable vocation for livelihood support by 2020.

### Mission

To achieve 4 percent growth rate for agriculture sector during the 12th Plan, with the help of various State Governments and other Departments concerned in the Government of India by enhancing agriculture production & productivity and improving income level of all farmers by successful implementation of various new initiatives and agriculture missions/schemes such as National Food Security Mission, National Horticulture Mission, National Mission on Oil Seeds and Oil Palm, National Mission for Sustainable Agriculture, and National Mission on Agricultural Extension & Technology, Integrated Scheme for Farmers Income Security, Integrated Scheme on Agriculture Marketing, etc. to thus ensure food, nutritional and livelihood security.

### Objectives

- 1 Increasing Crop production and Productivity thereby ensuring food security and enhanced income level to farmers
- 2 Incentivizing states to enhance public investment in Agriculture & allied sectors to sustain and maintain capital formation and agriculture infrastructure
- 3 Diversification in Agriculture for increased income generation
- 4 Ensuring supply of agricultural inputs for enhanced production and productivity
- 5 Facilitate Plant Protection, Quarantine and Residue Management
- 6 Dissemination of technology / information to farmers
- 7 Enhancing Soil health and promotion of resource conservation technology for sustainable agriculture
- 8 Improving credit flow, market infrastructure, and risk mitigation
- 9 Maintaining Agricultural statistics to aid policy development
- 10 Drought Preparedness and Grant of relief under State Disaster Response Fund (SDRF) /National Disaster Response Fund (NDRF)
- 11 Encouraging private investment in Agriculture through PPP mode

### Functions

- 1 Endeavoring to ensure adequate and timely supply of inputs and services such as agricultural credit, fertilizers, pesticides, seeds and implements to farmers.

## Section 1: Vision, Mission, Objectives and Functions

- 2 Administering the National Agriculture Insurance Scheme (NAIS) and other Crop insurance schemes to provide relief to farmers in the event of crop failure.
- 3 Laying down Minimum Support Prices (MSPs) for select key agricultural commodities to ensure food security and remunerative prices for farmers.
- 4 Developing suitable strategies for rainfed farming through people's participation for a holistic and integrated development of potential watersheds, and promotion of a farming system approach for augmenting the income and nutritional level of farming Communities.
- 5 Assisting the States in the management of drought and undertaking scarcity relief measures.
- 6 Endeavoring to bring about the integrated development of markets for agricultural produce to safeguard the economic interests of the farming community.
- 7 Assisting the State Governments to improve agricultural extension services by adopting new institutional arrangements through the involvement of NGOs, farmers, organizations and agricultural universities.
- 8 Promoting plant protection measures and practices through dissemination of appropriate information and technology.
- 9 Working towards promoting measures for production of quality seeds and distribution of improved plant varieties.
- 10 Strengthening the cooperative movement through appropriate policy measures and also through organizations such as the National Cooperative Development Cooperation (NCDC), National Agricultural Cooperative Marketing Federation of India Limited (NAFED) and National Cooperative Union of India (NCUI).
- 11 Phyto – sanitary responsibilities, statutory and mandatory functions like international negotiations.

## Section 4: Description and Definition of Success Indicators and Proposed Measurement Methodology

SI.No	Success indicator	Description	Definition	Measurement	General Comments
1	[1.3.1] Additional production of 5 Million tons over year (5 year moving average)	The target of additional production of 5 million tons is on the assumption of normal monsoon. The target will be lower by 1 million tons on deficiency of every 1.5% in rainfall as compared to Long Period Average (LPA). Achievement of additional production target will be calculated based on moving average of last 5 years.	The world Food Summit, defined food security as follows: 'Food security exists when all people, at all times, have physical and economic access to sufficient, safe and nutritious food to meet their dietary needs and food preferences for an active and healthy lifestyle.' The same definition has been adopted in this RFD.		
2	[6.4.2] Ventures set up by the candidates	In only one of the SIs i.e. [6.3.2] "ventures set up by the candidates", the targets/criteria values have been revised downwards as compared to previous year's targets. There is upward revision in some of the SIs. The reason for the downward revision is as follows: The ACABC (Agri-Clinics & Agri-Business Centres) scheme is not under primary lending category of the Banks and the amount involved forms only a miniscule portion of the Banks' lending. Therefore, the success rate has dropped down in recent years
